

NOTICE TO MEMBERS

The CCAC has found that certain Wood Council Locals have each violated the International Union Elections Manual by posting on their respective union-owned Facebook and web pages an identically worded letter on union letterhead signed by the Local President (and other materials) which disparaged and opposed the candidacy of incumbent District 3 Director Steve Hunt.

Further, that such matters were posted notwithstanding an earlier warning issued by International President Conway to the Wood Council cautioning against the use of union resources, such as letterhead, for or against a candidate for union office or District Director.

Accordingly, each Local is directed to cease and desist from such conduct, to promptly delete all such documents and other materials from their respective Facebook and Web Pages and to advise the CCAC, in writing, that these steps have been implemented.
